As we understand that the eProject is a step-by- step learning environment that closely simulates the class-room and Lab based learning environment into actual implementation. It is a project implementation at your fingertips!! An electronic, live juncture on the machine that allows you to.

- ✓ Practice step by step i.e. ladder approach.
- ✓ Build a larger more robust application.
- ✓ Usage of certain utilities in applications designed by user.
- ✓ Single program to unified code leading to a complete application.
- ✓ Learn implementation of concepts in a phased manner.
- ✓ Enhance skills and add value.
- ✓ Work on real life projects.
- ✓ Give a real life scenario and help to create applications more complicated and useful.
- ✓ Mentoring through email support.

To complete the research process and complete this project, first of all, we would like to thank our Prof. Le Thanh Nhan at FPT Aptech Computer Education. He is very kind and patient with his students. He is always willing to guide and support we all the time while we conduct this project. He plays an essential role as the greatest advisor and mentor in our study. This project has largely relied on his precious comments to complete. We sincerely appreciate his great assistance toward this work.

Beside several mistakes we had made in the project, we hope to have more opportunities to widen our knowledge in web developing world.

We also thank you so much for your information and the “demo” project from India APTECH to help us get more reality experience in this project. Since we have gained more experience from this project, we will not stop learning anything as much as we can to be more successful in the future.

Your Sincerely,

Team Group 01.

Synopsis

The Objective of this program we aim is to give a sample project to work on real life projects. These applications help us build a larger more robust application.

The objective is not to teach us HTML/JavaScript but to provide us with a real life scenario and help us create basic applications using the tools.

Hence, we can revise the chapters before we start with the project.

This project is meant for students like us who have completed the module of HTML5. These programs should be done in the Lab sessions with assistance of the faculty if required.

This website is a tool that brings everything in the world to you including available uniform designs or will design according to your requirements.

It is very essential for us that will have a clear understanding of the subject. We think we should go through the project and solve the assignments as per requirements given.

And get back ***eprojects@aptech.ac.in*** as the assigned schedule.

Design Plan: A-1 Uniforms	Document Name: Problem Definition	SWD/Form No.01/PD/Ver1.0
Effective Date: 10-04-2021	Version 1.0	Page No: 1 of 31

Problem Definition

A-1 uniforms was founded in 2016 and since then they have been one of the leading Uniform Manufacturers in the country. They supply many schools in country and they give them the best uniforms. They supply affordable school uniforms for girls and boys. When clients come, they cater to client's vision. As a team of professionals they understand what clients want and deliver the best results.

At A-1 uniform designs are innovative and there are always fresh and new ideas for each and every client. The textiles are of excellent quality and they make each uniform according to the size requirements given. The fit is ingenious and they provide with the best. A-1 uniform is a part of a continuous strategic process of creative inputs from experts in the field. They consider each client differently and ensure the satisfaction with the end results. Each client is given the uttermost importance.

A1 Uniform Sales Co, Inc. is the source for quality uniforms and dependable, personalized customer service. With our wide variety of style and color choices, we can match your every need. And our size selections are like no other...

If we don't have it, we'll get it for you!

So whatever your professional garment requirements:

- Shirts
- Skirts
- Frocks
- P.T. T-shirts
- P.T. T-shorts
- P.T. track pants

Customer Requirements Specifications

Input:

- Input member registration information.
- Input the product name customer are looking for.
- Comments/feedback for administration.

Process:

- Check member registration information.
- Find the product name customer are looking for.
- Check comments/feedback for administration.

Output:

- Notification of successful / failed registration.
- Notification on a screen with or without the product the customer is looking for.
- Notification of successful/failed for comments/feedback.

Web master:

Input:

- Input a username password when an administrator login to admin web.
- Input information about the product to add / edit / delete.
- Enter information about the brand to add / edit / delete.

- Respond to customer comments/feedback.

Process:

- The product to add / edit / delete.
- The brand to add / edit / delete.
- Check information for replies of comment/feedback.
- Delete comment/feedback.

Output:

- Login success / failure notification.
- Notice of successful / failed product deletion.
- Notice of successful / failed brand deletion.
- Notice of successfully / failed replies for comment/feedback.
- Notice of successfully / failed deletion for comment/feedback.

Hardware/ Software Requirements:

Hardware:

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better
- 64 Megabytes of RAM or better

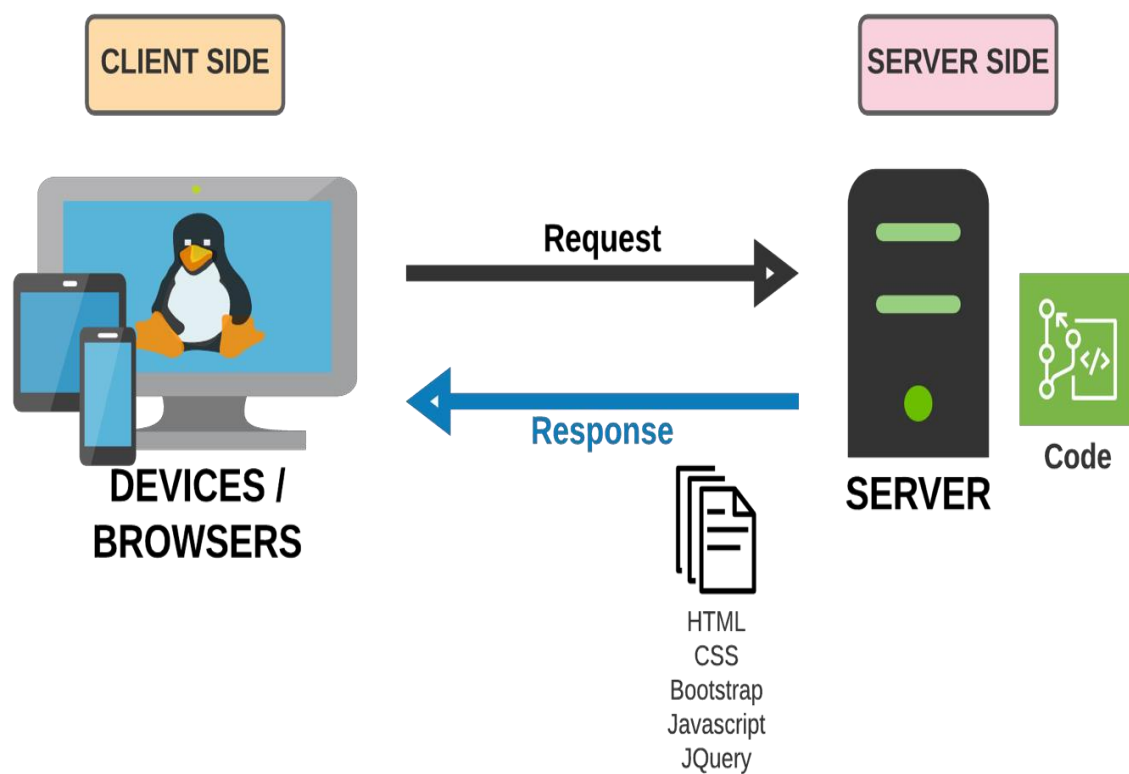

Software:

- Notepad/ HTML editor
- Dreamweaver
- IE 5.0/ Netscape 6.0
